

Whitman Conservation District

State Legislative District #9
Congressional District #5

Other Accomplishments

We continue to host tours to Maple K Farm's wind-generated pumping plant for livestock watering.

We completed our third year of the *Oilseed Farm-to-Market* demonstration at the Palouse Empire Fair.

We completed our 10th year of conservation plantings with the local 5th graders.

2008 Feature Accomplishment

Cost-Share Program

Resource Challenge

The resource challenge is to eliminate soil erosion and soil run-off to the district streams.

Project Summary and Results

The District offers cost-share funding for multiple practices that assists landowners and operators to achieve success in improvements to their operations.

Watering Trough

More Work To Do

The District would like to further the outreach programs which include:

- on-the-ground implementation of practices through technical and financial assistance; and
- outreach programs for both the adults and youth of the area.
